## About

This Document is designed to show you how to install the FOEX Developer Addon. If you have any questions or problems please raise them on our [Support Forum](#).

## Prerequisites

This Document is based on the assumption that on the Oracle APEX Instance you are going to test the FOEX Plugin Framework is already installed.

If that is not the case please refer to *FOEX Plugins Installation Guide*, which is part of the FOEX Software Package. Alternatively you can evaluate FOEX online by visiting <http://www.tryfoexnow.com> and sign up for a trial workspace which will have everything needed for to complete this guide.

For Development of FOEX Applications a current Version of Firefox Browser or Google Chrome Browser is required.

## Installing the FOEX Developer Addon

**Note:** with V2.0 we changed the FDA and rewrote it from scratch. If you already have an older version installed, please remove that from your browser addons/extensions.

The FOEX Developer Addon (FDA) is a Browser Extension for Firefox or Google Chrome that improves Usability of handling FOEX Components in the Oracle APEX Application Builder.

### Install FDA on Firefox

1. **Download** the File  
[http://tryfoexnow.com/c/DeveloperAddon/latest/fda\\_firefox.xpi](http://tryfoexnow.com/c/DeveloperAddon/latest/fda_firefox.xpi) and save it to your computer
2. Start Firefox
3. Go to your APEX Workspace, log in, open the Application Builder and edit a FOEX Application
4. Now take the File fda\_firefox.xpi and drag it onto the Application Builder
5. The Browser asks if you want to install this addon. Press Install
6. When refreshing the Page you should now see the FOEX Developer Addon Toolbar at the Bottom of the Application Builder Page.

Application Express 4.1.1.00.23

Workspace: FOEX\_MASTER\_WS User: PRAGANITSCH

**FOEX Developer Addon** Building beautiful and secure applications amazingly FAST! - [Reset](#) - [clear Cache](#) - [Help](#) - [Feedback](#) - [Bugs](#) - [About](#) - Version: 129

## Install FDA on Google Chrome

Simply go to the [Google Chrome Webstore](#) and install the FDA extension there.

If this link doesn't work for you, then follow these steps:

1. Open Google Chrome
2. Go to the Extensions Page (Window – Extensions)
3. Click the “Get more Extensions” link in the bottom left corner
4. This has opened the Chrome Webstore in a new tab
5. Now search for FDA in the top left search field
6. Choose the FDA from “FOEX GmbH” and add it to your browser

Application Express 4.1.1.00.23

Workspace: FOEX\_MASTER\_WS User: PRAGANITSCH

Language: en | Copyright © 1999, 2012, Oracle. All rights reserved.

**FOEX Developer Addon** Building beautiful and secure applications amazingly FAST! - [Reset - clear Cache](#) - [Help - Feedback - Bugs - About](#) - Version: 129

## FDA Install Verification

After a successful install of the FDA you should see the “Create FOEX Page” button to the left of the regular “Create Page” button and also see the blue toolbar at the bottom of the APEX page. If you don’t please log an entry on [forum.tryfoexnow.com](http://forum.tryfoexnow.com)

The screenshot displays the Oracle APEX Application Express interface. The top navigation bar includes 'ORACLE Application Express' and 'Workspace FOEX\_MASTER\_WS (Logout)'. The main area shows 'Application 615052425 - FOEX Template Application - Th' with various icons for 'Run Application', 'Supporting Objects', 'Shared Components', 'Utilities', and 'Export / Import'. A table lists pages, including 'Login' and 'FOEX Dev'. A green box highlights the 'Create FOEX Page' button, and a green arrow points from it to the bottom toolbar. The bottom toolbar contains the text 'FOEX Developer Addon (FDA) Building beautiful and secure applications amazingly FAST!' along with links for 'Clear FDA Cache', 'FDA Help / Info', and 'Version: 4229 /V2.0.0/3005'.

| Page       | Name     | Updated       | Updated By  | Page Type   | User Interface | Group      | Lock | Run |
